Dear Sir/Madam,

Last month a good friend VICTORIA WINDSOR sent a copy of your Newsletter fall 2010. On the front page I read the article on JOHNNY the TREEING WALKER HOUND.

I was touched by this story but horrified to think that young children could be so brutal to an animal.

My husband and I live in Bulawayo Zimbabwe, Africa, I am Manager/Animal Welfare Officer for the above organisation. I rescued an abandoned Treeing Walker Hound who had been left behind by Hunters. We adopted her and named her SHANI. She was with us for six years but sadly last January whilst hunting in our paddocks she was bitten by a deadly Black Mamba and died before we could get help.

Hounds are gentle, loving dogs and it saddens me to think of what happened to Johnny.

Thankyou for the wonderful work you do for the animals.

God Bless you all.

Yours,

BERRY OOSTHUIZEN
